The plans on which this Home Enterprise operates and the principles which the charter protects renders it the best method of Fire Insurance under the sun. Every business man knows that Capital Stock means Speculation. "The Valley Home" has no capital stock, convequently no dividends to divide; neither dees it call for Annual Premiums, nor have any legal affiliations to incorporated capital stock, which as a rule, either becomes immensely rich at the expense of every man who takes insurance subject to it, or else goon dissortes. Our system simply means pay a small record fee, and for the property burned. All you pay by assessment is appropried to pay the less of your neighbor; if your property burns, your neeighbor is assessed to pay rou. This is not only Insurance, but the practical exercise of right. If you will give this business transaction five minutes solid thought you will see that this is The Company in which to place your insurance.
